Dee Strickler *Northwest Penstemons*

Dee Strickler's widow Claire gave the American Penstemon Society (APS) two cases of "**Northwest Penstemons**" authored by her husband, the late Dee Strickler, PhD, and illustrated by their daughter, Zoe. The book has 80 full-color pictures of Penstemon species along with maps, descriptions and growing information.

APS is selling the book for \$18.50 including shipping.

The books could be educating botany students and gaining us new members! Any college student taking a basic botany class would get a real leg up using the glossary with basic leaf, stem, and inflorescence information.
